Biomembranes

Vol. 1151, 1993

Cumulative Contents

Information for Contributors vii

Regular Papers

Fura-2 transport in toad urinary bladder epithelium: effects of antidiuretic hormone, colchicine and osmotic gradients
M. Parisi, R. Dorr, R. Bonnet, M. Borgnia and J.P. Rossi (Argentina, France) 1

Transmembrane mobility and distribution of phospholipids in the membrane of mouse β-thalassaemic red blood cells
P. Müller, A. Zachowski, Y. Beuzard and P.F. Devaux (France) 7

Effects of high pressure on the channel gated by the quisqualate-sensitive glutamate receptor of locust muscle and its blockade by ketamine; a single-channel analysis
A.G. Macdonald, R.L. Ramsey, J. Drewry and P.N.R. Usherwood (UK) 13

The state of association of Band 3 of the human erythrocyte membrane: evidence of a hexamer
P. Wong (Canada) 21

Influence of hydroxylation and conjugation in cross-inhibition of bile acid transport across the human trophoblast basal membrane
M.A. Serrano, P. Bravo, M.Y.A. El-Mir and J.J.G. Marin (Spain) 28

Biosynthesis and initial processing of the cardiac sarcolemmal Na^+–Ca^{2+} exchanger
L.V. Hryshko, D.A. Nicoll, J.N. Weiss and K.D. Philipson (USA) 35

Interaction of hydrophobic peptides with model membranes: slow binding to membranes and not subtle variations in pore structure is responsible for the gradual release of entrapped solutes
G. Saberwal and R. Nagaraj (India) 43

Topography of tetrahydrocannabinol in model membranes using neutron diffraction
P. Martel, A. Makriyannis, T. Mavromoustakos, K. Kelly and K.R. Jeffrey (Canada, USA) 51

In vitro cytostatic effect of TNF (Tumor Necrosis Factor) entrapped in immunoliposomes on cells normally insensitive to TNF
H. Morishige, T. Ohkuma and A. Kaji (USA, Japan) 59

Novel radioactive phospholipid probes as a tool for measurement of phospholipid translocation across biomembranes
K. Anzai, Y. Yoshioka and Y. Kirino (Japan) 69

Effect of salts on conformational change of basic amphipathic peptides from β-structure to α-helix in the presence of phospholipid liposomes and their channel-forming ability
S. Lee, T. Iwata, H. Oyagi, H. Aoyagi, M. Ohno, K. Anzai, Y. Kirino and G. Sugihara (Japan) 76

In vivo inactivation of the yeast plasma membrane ATPase in the absence of exogenous catabolism
L. Amigo, E. Moreno and R. Lagunas (Spain) 83

Rapid kinetic analyses of the Na^+/K^+-ATPase distinguish among different criteria for conformational change
P.R. Pratap and J.D. Robinson (USA) 89

Oligomeric structure of the sodium-dependent phlorizin binding protein from kidney brush-border membranes
C. Gerardi-Laffin, P. Delque-Bayer, P. Sudaka and J.C. Poiree (France) 99

Rapid Report

Electric field-mediated glycophorin insertion in cell membrane is a localized event
K. El Ouagari, B. Gabriel, H. Benoist and J. Teissié (France) 105

Regular Papers

Lipophilic derivatization and its effect on the interaction of cholecystokinin (CCK) nonapeptide with phospholipids
R. Romano, T.M. Bayerl and L. Moroder (Germany) 111

Adhesive interaction of hemopoietic progenitor cell membrane with the RGD domain of fibronectin
J.J. Minguell, C.L. Hardy and M. Tavassoli (USA) 120

Interaction of myelin basic protein with single bilayers on a solid support: an NMR, DSC and polarized infrared ATR study
H.M. Reinl and T.M. Bayerl (Germany) 127

Enzymatic hydrolysis of reconstituted dimyristoylphosphatidylcholine–apo A-I complexes
L. Lins, S. Piron, K. Conrath, B. Vanloo, R. Brasseur, M. Rosseneu, J. Baert and J.-M. Ruysschaert (Belgium) 137

Inhibition of transport systems in yeast by photodynamic treatment with Toluidine blue
M. Paardekooper, A.W. De Bruijne, J. Van Steveninck and P.J.A. Van den Broek (The Netherlands) 143

Identification of the phosphorylation site on human erythrocyte band 7 integral membrane protein: implications for a monotopic protein structure
U. Salzer, H. Ahorn and R. Prohaska (Austria) 149

The relationship between sodium-dependent transport of anionic amino acids and cell proliferation
O. Bussolati, J. Uggeri, B.M. Rotoli, R. Franchi-Gazzola and G.C. Gazzola (Italy) 153

The diversity of Na^+-independent uptake systems for polyamines in rat intestinal brush-border membrane vesicles
M. Kobayashi, K. Iseki, M. Sugawara and K. Miyazaki (Japan) 161

Photophysical properties of 3,3′-dialkylthiacarbocyanine dyes in organized media: unilamellar liposomes and thin polymer films
M. Krieg, M.B. Srichai and R.W. Redmond (USA) 168

Saccharomyces cerevisiae expression of exogenous vacuolar ATPase subunits B
Y.-X. Pan, H.H. Gu, J. Xu and G.E. Dean (USA) 175

Kinetics and peculiarities of thermal inactivation of volume-induced Na^+/H^+ exchange, $Na^+,K^+,2Cl^-$ cotransport and K^+,Cl^- cotransport in rat erythrocytes
S.N. Orlov, I.A. Kolosova, E.J. Cragoe, T.G. Gurlo, A.A. Mongin, S.L. Aksentsev and S.V. Konev (Russia, USA, Belarus) 186

Solubilization and reconstitution of high- and low-affinity Na^+-dependent neutral L-α-amino acid transporters from rabbit small intestine
M. Nakanishi, T. Tetsuka, Y. Kagawa, A. Moriyama, M. Sasaki and H. Hirata (Japan) 193

Transmembrane ammonium sulfate gradients in liposomes produce efficient and stable entrapment of amphipathic weak bases
G. Haran, R. Cohen, L.K. Bar and Y. Barenholz (Israel) 201

A near perfect temperature adaptation of bilayer order in vertebrate brain membranes
M.K. Behan-Martin, G.R. Jones, K. Bowler and A.R. Cossins (UK) 216

Mitochondrial pyruvate transport in working guinea-pig heart. Work-related vs. carrier-mediated control of pyruvate oxidation
R. Bünger and R.T. Mallet (USA) 223

H^+-coupled dipeptide (glycylsarcosine) transport across apical and basal borders of human intestinal Caco-2 cell monolayers display distinctive characteristics
D.T. Thwaites, C.D.A. Brown, B.H. Hirst and N.L. Simmons (UK) 237

Ral and Rab3a are major GTP-binding proteins of axonal rapid transport and synaptic vesicles and do not redistribute following depolarization stimulated synaptosomal exocytosis
D.F. Bielinski, H.Y. Pyun, K. Linko-Stentz, I.G. Macara and R.E. Fine (USA) 246

Electric depolarization of photosensitized cells: lipid vs. protein alterations
B. Ehrenberg, E. Gross, Y. Nitzan and Z. Malik (Israel) 257
